

# EnforcePro Hawk II

Enforce Pro Hawk II is a fast and accurate breath alcohol meter, with an unlimited number of inspections, meeting work requirements in industrial plants or law enforcement agencies. . Model Hawk II with compact design, durable operation and convenient use.

Equipped with smart touch screen, user-friendly interface makes it easy to operate and operate.

Enforce Pro Hawk II can be used for both active and passive measurements. Manual mode, the device is measured when attached to the bellows. Passive mode can be performed when the device is attached to the blowing funnel. Alcohol test results will be displayed within seconds.

In addition to breathability measurement, Enforce Pro Hawk II also comes with a built-in thermal printer to help you print test results on the field.

**EnforcePRO**

## Sensor

- Hawk II's fuel sensor can produce accurate results within seconds. The sensor is designed to work correctly for long usage times and large test volumes.

## Industrial features

- Hawk II is the first choice with industry standard with unlimited testing capability.

## Measuring mode

- Use in active measurement mode when attaching a blower and passive measurement mode when attaching a funnel.

## Hygiene mode

- The device has a button to disassemble the bellows without touching the hands to replace, ensuring hygiene and safety for the operator as well as the person being tested.

## Testing reminders

- When the test is due, the device will have a warning bell for verification

## Memory capacity

- Hawk II is the largest storage device on the market with a storage capacity of up to 40,000 results including violator information, vehicle control boards as well as driver's licenses.

## Measurement

- Measuring range of Hawk II in the range of 0.000 - 4,000 mg / L.
- Accuracy is  $\pm 0.100$  at 2,000 mg / L;  $\pm 0.02$  at 0.4 mg / L.

## Other function

- AA alkaline rechargeable batteries include rechargeable cups, rechargeable batteries.
- Integrated thermal printer on the body.
- 3.5" touch screen.
- Display 3 decimal numbers.
- GPS navigation.
- Connect PC via USB port.
- Automatic shutdown.
- Control the breath flow
- Low battery warning.

## SPECIFICATIONS:

Manufacturer	EnforcePro
Model	Hawk II
Origin	Australia
Sensor type	Electrochemical fuel cell sensor
Measurement range	0.000 ~ 4.000 mg/L
Accuracy	$\pm 0.100$ at 2.000 mg/L; $\pm 0.02$ at 0.4 mg/L
Calibration	01 /Year
Testing mode	Active & Passive Mode
Temperature Range	-5 C~50°C / Storage: -30 C~70°C
Warm-up Time	$\leq 5$ second
Language	Available in English and Vietnamese
Recovery Time	$\leq 3$ second
Analysis Time	$\leq 2$ second
Display TFT LCD	3.5" colour touch screen (65.000 colors)
Memory Capacity	40,000 tests
Location	GPS
Printer	Internal thermal printer
Dimensions	188mm x 80mm x 37mm
Battery	Lithium 7,4V – 2000 mAh
Weight	Approx. 410g (Includes battery and print paper)
