

EnforcePro Hawk II

Travel from site to site and keep on testing with the EnforcePro Hawk II breathalyser – It's simple to set up, and even simpler to use. With advanced options for testing, screening and storing information; make sure you and your employees have the information to comply with any OHS policy.

The EnforcePro Hawk II breathalyser is packed with powerful features including press- button mouthpiece release for more hygienic testing, 65,000 entries memory capacity, USB plug in, 3.5" TFT colour touchscreen, and unbeatable accuracy. When it comes to high volume employee testing, the EnforcePro Hawk II breathalyser is really the top choice when you want functionality, advanced options, and accuracy.

Features

Fuel Cell Accuracy

The Hawk II fuel cell sensor provides accurate readings within seconds. Designed for exceptional accuracy and long lifespan for high volume testing.

Industrial Breathalyser

Hawk II is the top choice for high volume workplace alcohol testing as it can conduct unlimited tests between calibrations.

Passive Testing

Use normal mode with a mouthpiece to get accurate 3 decimal place readings or passive mode with a sampling cup to quickly test for the presence of alcohol.

Fast Results

Lightning fast results - the Hawk II is ready to use within 5 seconds and provides a result within 3-6 seconds.

Rechargeable Battery

The Hawk II comes with rechargeable batteries plus a charger, saving you from buying new batteries and ensures continuous usage.

Clean and Hygienic

The unit comes with a mouthpiece eject button for sanitary operation.

Calibration Reminder and Settings

Alerts you when calibration is due and you have full control over recalibration time warnings with advanced options; choose 6 months, 12 months or anywhere up to 2000 tests.

Memory Function

Storage capacity for up to 65,000 entries. You can enter data including Driver Name, Vehicle Number and Licence

Highly Accurate Readings

Provides accurate readings, providing readings ranging from 0.000 – 0.400% BAC at an accuracy of +/- 0.005% BAC.

Data Input

Optional customisable data collection.

USB Connectivity

USB functionality for downloading and exporting data to a PC, perfect for storing all employee data and history.

3.5" TFT Colour Touch Screen

Makes storing details, taking samples, and changing information easy.

Specifications

Model No.	EnforcePro Hawk 2
BAC	0.000 ~ 0.400 %BAC
Sensor Type	Electrochemical fuel cell sensor
Accuracy	±0.005 at 0.100%BAC
Warm Up Time	1 - 5 seconds
Response Time	3 - 6 seconds
Recycle Time	1 - 3 seconds
Working Temperature	-5°C ~ 40°C
Power Supply	Rechargeable battery pack
Testing Mode	Active & Passive Mode

Printer	Internal thermal printer
Display	3.5 inch TFT colour touch screen
Memory Capacity	65,000 tests
Calibration Frequency	Every 6 months
Includes	User manual, mouthpieces, sampling cup, battery charger
Product Weight	Approx. 410g (Including batteries, printer, and paper)
Dimensions	H: 188mm, W: 80mm, D: 37mm
Warranty	6 months
Language	Available in English and Vietnamese
